Basic Information

- Place of Origin: China
- Minimum Order Quantity: 2
- Price: \$30,000.00/units 1-4 units
- Delivery Time: 45-60
- Payment Terms: T/T, L/C, D/A

Product Specification

- Fast Charge Time: 0.5 Hours
- Driving Assistant System: DiPilot Intelligent Driving Assistant System, DiTrainer Training Mode, A CC Full Speed Adaptive Cruise System, Artificial Intelligence Driving Systems
- Brand: BYD
- Battery Safety: High Safety And Long Life, Comprehensive Battery Protection
- Safety Features: Five Star Safety Body Design Standard, High Rigid Energy Absorbing Annular Structure Body, 62% Coverage Of High-strength Steel Plates, 360° All-round Protection
- 360° Image System: Holographic Transparent Image System, High Definition 3D Panoramic Observation, 360° Free Of Dead Angle

Product Description

Product Description:

The Speed Electric Car with 87.04kwh Battery Capacity and 605km Range is a cutting-edge sedan car model introduced by BYD, known as the Song Plus EV. This innovative auto passenger vehicle is set to redefine the driving experience with its impressive features and specifications.

One of the key highlights of the Speed Electric Car is its global innovation in driving technology, setting new standards in the automotive industry. With a maximum speed of 175km/h, this sedan car offers both power and efficiency for a smooth driving experience on the road. Equipped with an 87.04kwh battery capacity, the Song Plus EV provides a remarkable driving range of 605km on a single charge, making it ideal for long journeys and daily commutes. In addition, the fast charge capability of the vehicle allows for quick and convenient charging, with a 0.5-hour charge time ensuring minimal downtime.

Designed to meet the needs of modern drivers, the Speed Electric Car combines performance, range, and innovation in a sleek sedan car package. The 2025 model year marks a significant milestone for BYD, as they continue to lead the way in the development of electric automobiles.

As a sedan car in the product category of automobiles, the Song Plus EV stands out for its advanced features and forward-thinking design. With a focus on sustainability and efficiency, this electric vehicle represents the future of automotive engineering and technology.

Features:

Product Name: Sedan Car

Fast Charge Time: 0.5 hours

Safety Features:

Five star safety body design standard

High rigid energy absorbing annular structure body

62% coverage of high-strength steel plates

360° all-round protection

Battery Safety: High safety and long life, comprehensive battery protection

Max Speed: 175km/h

360° Image System:

Holographic transparent image system

High definition 3D panoramic observation

360° free of dead angle

Technical Parameters:

Material	High-strength steel plates
Max Speed	175km/h
Fast Charge Time	0.5 hours
Driving Assistant System	DiPilot intelligent driving assistant system, DiTrainer training mode, ACC full-speed adaptive cruise system, artificial intelligence driving systems
Keyless Entry	Mobile phone NFC car key, easy unlocking by bringing the phone close, no fear of zero power or no network
Battery Capacity	87.04kWh
Battery Safety	High safety and long life, comprehensive battery protection
Battery Type	DM-i super hybrid special blade battery
Model	Song Plus EV
Brand	BYD

Applications:

When considering the Product Application Occasions and Scenarios for the Sedan Car product, it is important to understand the various attributes that make this vehicle stand out. This Benz EV Car, originating from China, offers a perfect blend of advanced technology, safety features, and elegant design at a competitive price of \$30,000.00 per unit for 1-4 units.

The Sedan Car is suitable for a wide range of occasions and scenarios due to its versatility and performance. Whether it is for personal use, corporate fleets, or transportation services, this vehicle is a reliable choice. The Delivery Time of 45-60 days ensures timely availability for customers in need.

With a Minimum Order Quantity of 2 units and flexible Payment Terms including T/T, L/C, and D/A, the Sedan Car is convenient for both individual buyers and businesses looking to expand their automobile fleet.

One of the standout features of this Sedan Car is its Driving Assistant System, which includes the DiPilot intelligent driving assistant system, DiTrainer training mode, A CC full speed adaptive cruise system, and artificial intelligence driving systems. These systems

enhance the driving experience and ensure a safe journey for passengers. The Sedan Car is equipped with a DM-i super hybrid special blade battery, ensuring high safety and long life. The comprehensive battery protection further adds to the reliability of this vehicle, making it a sustainable choice for environmentally conscious consumers. In terms of safety, the Sedan Car boasts impressive features such as the Five star safety body design standard, high rigid energy absorbing annular structure body, and 62% coverage of high-strength steel plates. The 360° all-round protection ensures the safety of passengers in various driving conditions. With the brand reputation of BYD, customers can trust the quality and reliability of the Sedan Car. Whether you are in need of Cars Body Parts, looking to expand your fleet of Automobiles, or simply seeking a stylish and efficient vehicle for personal use, the Sedan Car is a top choice that delivers on performance, safety, and innovation.
