

Five Star Safety Body Design Standard And DiTrainer Training Mode For City SUV Car

Our Product Introduction

for more products please visit us on puyue-evcar.com

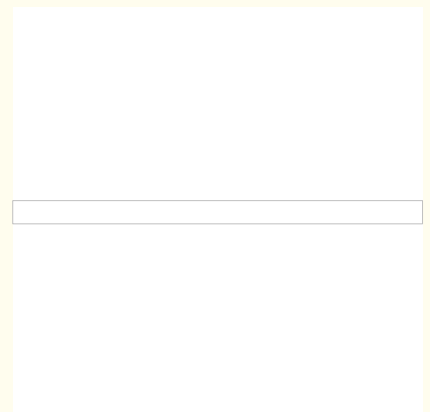

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 2
- Price: \$30,000.00/units 1-4 units
- Delivery Time: 45-60
- Payment Terms: T/T, L/C, D/A

Product Specification

- Battery Safety: High Safety And Long Life, Comprehensive Battery Protection
- Driving Assistant System: DiPilot Intelligent Driving Assistant System, DiTrainer Training Mode, A CC Full Speed Adaptive Cruise System, Artificial Intelligence Driving Systems
- Product Category: Sedan Car
- Material: High-strength Steel Plates
- Keyless Entry: Mobile Phone NFC Car Key, Easy Unlocking By Bringing The Phone Close, No Fear Of Zero Power Or No Network
- Battery Type: DM-i Super Hybrid Special Blade Battery
- Battery Capacity: 87.04kWh
- Fast Charge Time: 0.5 Hours

Product Description

Product Description:

Introducing the latest innovation in electric cars from BYD - the Speed Electric Car with a powerful 87.04kWh battery capacity, offering an impressive 605km range and a maximum speed of 175km/h. The BYD Song Plus EV is designed for efficiency and convenience, with a fast charge time of just 0.5 hours, setting new standards in electric car technology.

One of the standout features of the Speed Electric Car is its high safety and long life battery system, equipped with comprehensive battery protection mechanisms to ensure peace of mind for the driver and passengers. The advanced battery technology by BYD guarantees a safe and reliable driving experience, making it a top choice for eco-conscious consumers.

Experience unparalleled visibility with the 360° image system of the Speed Electric Car, featuring a holographic transparent image system that provides high definition 3D panoramic observation. Say goodbye to blind spots with a 360° view that is free of dead angles, enhancing safety and control while on the road.

Get ready to revolutionize your driving experience with the Speed Electric Car by BYD. With its cutting-edge technology and impressive performance, this electric car is set to redefine the future of transportation. Stay ahead of the curve and embrace the future of mobility with the BYD Song Plus EV for Fast Charge 0.5Hours in 2025.

When it comes to Electric Cars, BYD is at the forefront of innovation and sustainability. The Speed Electric Car is a testament to BYD's commitment to providing high-quality, eco-friendly vehicles that not only reduce carbon emissions but also deliver exceptional performance.

Explore the world of Electric Cars with the Speed Electric Car from BYD. Discover a range of features and technologies that make driving a truly enjoyable experience. From the advanced battery system to the 360° image system, every aspect of the Speed Electric Car is designed to exceed expectations.

Upgrade your driving experience with the Speed Electric Car by BYD. Discover the future of transportation today and enjoy the benefits of owning a high-performance, environmentally friendly vehicle. With the Speed Electric Car, you can drive with confidence knowing that you are making a positive impact on the environment.

Features:

Product Name: Sedan Car

Battery Type: DM-i super hybrid special blade battery

Max Speed: 175km/h

Material: High-strength steel plates

Battery Safety: High safety and long life, comprehensive battery protection

Driving Assistant System:

DiPilot intelligent driving assistant system

DiTrainer training mode

A CC full speed adaptive cruise system

Artificial intelligence driving systems

Technical Parameters:

Driving Assistant System	DiPilot intelligent driving assistant system, DiTrainer training mode, ACC full speed adaptive cruise system, artificial intelligence driving systems
Battery Capacity	87.04kWh
Battery Type	DM-i super hybrid special blade battery
Year	2025
Material	High-strength steel plates
Fast Charge Time	0.5 hours
Safety Features	Five star safety body design standard, high rigid energy absorbing annular structure body, 62% coverage of high-strength steel plates, 360° all-round protection
Product Name	Speed Electric Car 87.04kWh Battery Capacity 605km Range 175km/h Max Speed BYD Song Plus EV for Fast Charge 0.5 Hours in 2025
Battery Safety	High safety and long life, comprehensive battery protection
Range	605km

Applications:

Automobiles play a significant role in modern transportation, providing convenience and efficiency to individuals and businesses alike.

Among the diverse range of automobiles available, Sedan Cars stand out as a popular choice for various application occasions and scenarios. One such Sedan Car product that exemplifies quality and innovation is the BYD Sedan Car originating from China. Perfect for urban environments, the BYD Sedan Car priced at \$30,000.00 per unit (1-4 units) offers exceptional value for its features and performance. With a maximum speed of 175km/h, this vehicle ensures a smooth and enjoyable driving experience for everyday commutes or long-distance trips. The advanced 87.04kWh battery capacity enhances the car's efficiency and sustainability, catering to environmentally conscious consumers.

For those seeking a versatile and stylish vehicle, the BYD Sedan Car's 360° Image System adds a touch of sophistication. The Holographic transparent image system and high definition 3D panoramic observation provide a unique driving experience, making it a standout choice among Hyundai Vehicles. The 360° free of dead angle feature further enhances safety and visibility, ensuring a secure journey for passengers.

When considering purchasing the BYD Sedan Car, customers benefit from a reasonable delivery time of 45-60 days and a minimum order quantity of 2 units. The flexible payment terms including T/T, L/C, and D/A make the buying process convenient and accessible to a wide range of consumers interested in Car Automobile Parts.

In the year 2025, the BYD Sedan Car continues to uphold its reputation as a reliable and innovative vehicle, catering to the evolving needs of the automotive market. Whether for personal use, business travel, or leisure activities, this Sedan Car product offers a perfect blend of performance, style, and sustainability.
