Mileage:	1-25000 Miles

Product Description:

The Chinese Mini Electric Car is a stylish and eco-friendly vehicle that combines innovative design with reliable performance. With a wheelbase ranging from 2500mm to 3000mm, this compact car is perfect for navigating through city streets with ease. One of the standout features of the Chinese Mini Electric Car is its panoramic sunroof, which allows you to enjoy the sights and sounds of the outdoors while on the go. Whether you're cruising down the highway or stuck in traffic, the sunroof adds a touch of luxury to your driving experience.

When it comes to mileage, the Chinese Mini Electric Car offers an impressive range of 1 to 25000 miles on a single charge. This means you can travel further without worrying about running out of battery power, making it ideal for daily commutes or weekend getaways. The multi-function steering wheel of the Chinese Mini Electric Car puts control at your fingertips, allowing you to easily adjust settings and navigate through various functions without taking your hands off the wheel. This intuitive feature enhances the driving experience and ensures a safe and comfortable ride.

With a fuel tank capacity of 50 to 80 liters, the Chinese Mini Electric Car offers ample range for longer journeys without the need for frequent refueling stops. This means you can spend more time on the road and less time at the gas station, saving both time and money in the long run.
