- Seats Material: Fabric
- Wheelbase: 2500-3000mm
- Copilot Seat Adjustment: Electric
- Displacement: 2.0-2.5L
- Number Of Seats: 5
- Engine Type: Naturally Aspirated
- Type: Compact

## Product Description

### Product Description:

The Chinese Mini Electric Car is a delightful and efficient vehicle that combines eco-friendliness with style. With its compact size and innovative features, this car is perfect for urban driving and eco-conscious consumers.

One of the standout features of the Chinese Mini Electric Car is its fuel tank capacity, which ranges from 50 to 80 liters, providing ample range for your daily commutes and weekend adventures.

While lacking a touch screen interface, this car makes up for it with a panoramic sunroof that allows you to enjoy the natural light and fresh air as you drive. The sunroof adds a touch of luxury to the driving experience, making every journey more enjoyable.

When it comes to functionality, the Chinese Mini Electric Car boasts a multi-function steering wheel that puts essential controls right at your fingertips. Whether you're adjusting the volume, changing the track, or answering calls, the steering wheel ensures that you can stay focused on the road ahead.

With a wheelbase ranging from 2500 to 3000mm, this car offers a stable and comfortable ride, providing ample space for passengers while navigating city streets and highways with ease.

In summary, the Chinese Mini Electric Car is a versatile and eco-friendly vehicle that prioritizes efficiency and style. From its spacious interior to its innovative features, this car is designed to meet the needs of modern drivers who value sustainability and performance.

### Technical Parameters:

Number Of Seats	5
Seats Material	Fabric
Fuel Tank Capacity	50-80L
Touch Screen	None
Steering Wheel	Multi-function
Copilot Seat Adjustment	Electric
Wheelbase	2500-3000mm
Made In	China
Type	Compact
Engine Type	Naturally Aspirated

### Applications:

The copilot seat adjustment feature in the MINI Car is electric, providing passengers with added comfort and convenience. This makes it perfect for daily commutes or city driving, where easy and quick adjustments are needed to ensure a smooth ride.

With a displacement ranging from 2.0 to 2.5 liters, the MINI Car offers a good balance of power and fuel efficiency. Whether navigating through busy city streets or cruising on the highway, the MINI Car delivers a responsive and reliable performance.

The wheelbase of the MINI Car falls between 2500 to 3000mm, providing a stable and comfortable ride for both driver and passengers. This makes it suitable for various terrains and road conditions, ensuring a smooth and enjoyable driving experience.

Equipped with a naturally aspirated engine type, the MINI Car delivers consistent power and performance without the need for additional turbocharging. This makes it a reliable and low-maintenance option for those looking for a hassle-free driving experience.

In conclusion, the MINI Car is a versatile vehicle that can be used in a variety of application occasions and scenarios. Whether it's a Chinese Mini Electric Car for daily commuting, a Chinese Mini Electric Car for weekend getaways, or a Chinese Mini Electric Car for family road trips, the MINI Car offers a combination of style, performance, and comfort that caters to different driving needs.

### Packing and Shipping:

This MINI Car product comes in a sleek and compact packaging designed to ensure its safety during shipping. The product is carefully placed inside a sturdy cardboard box with protective cushioning to prevent any damage.

Shipping: We offer fast and reliable shipping services to ensure that your MINI Car reaches you in perfect condition. Our shipping team handles each package with care to guarantee a smooth delivery process.
